Subject Index Volume 5

Acquired immunodeficiency syndrome
Cytomegalovirus adrenalitis in acquired immunodeficiency syndrome (Chiu et al) 218
Adenocarcinoma
Carotid body tumor mimicking adenocarcinoma on fine-needle aspiration (Soares et al) 131 (Case report)
Adenoma
A composite somatotroph-corticotroph pituitary adenoma (Apel et al) 240 (Case report)
Cushing's syndrome caused by an ectopic pituitary adenoma of the sphenoid sinus: adrenal crisis after partial resections of the adenoma (Morita et al) 123 (Case report)
Cytokeratin distribution and functional properties of growth hormone–producing pituitary adenomas (Sano et al) 107
DNA measurement, proliferation markers, and other factors in pituitary adenomas (Krämer et al) 198
Hormone production and c-*myc* protein labeling in plurihormonal pituitary adenomas (Ikeda et al) 162
Incidental adenomas of the human pituitary gland (Uei et al) 90
The neurofibromatosis gene in human pituitary adenomas (Pei and Melmed) 229
Occurrence and significance of vascular invasion in multinodular adenomatous goiter (Papotti et al) 35
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a gastric carcinoma metastatic to a thyroid adenoma (Nonomura et al) 233 (Case report)
Adrenal gland
Carbonic anhydrases in the human adrenal gland and its disorders: immunohistochemical and biochemical studies of the enzymes (Sasano et al) 100
Cushing's syndrome caused by an ectopic pituitary adenoma of the sphenoid sinus: adrenal crisis after partial resections of the adenoma (Morita et al) 123 (Case report)
Cytomegalovirus adrenalitis in acquired immunodeficiency syndrome (Chiu et al) 218
Aged
Amyloid deposits of the pituitary in old age: correlation with histopathological alterations (Röcken and Saeger) 183
Amyloid
Amyloid deposits of the pituitary in old age: correlation with histopathological alterations (Röcken and Saeger) 183
Antibodies, monoclonal
Metallothionein expression in normal, hyperplastic, and neoplastic thyroid follicular and parafollicular C cells using monoclonal antimetallothionein antibody E9 (Schmid et al) 114
Autoimmune diseases
Rathke's pouch during autoimmune inflammation of the rat pituitary (Levine and Saltzman) 149
Thyroid lymphomas in human thyroid tissue with autoimmune thyroid disease xenografted in severe combined immunodeficient mice (Morita et al) 169

Basic fibroblast growth factor
Localization of basic fibroblast growth factor (bFGF) protein and mRNA in human pituitaries: regulation of bFGF mRNA by gonadotropin-releasing hormone (Jin et al) 27
Biopsy, needle
Carotid body tumor mimicking adenocarcinoma on fine-needle aspiration (Soares et al) 131 (Case report)
Bladder neoplasms
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67 (Case report)
Breast neoplasms
Pineal gland metastases from mammary carcinoma (Kerenyi et al) 59

C cells
Metallothionein expression in normal, hyperplastic, and neoplastic thyroid follicular and parafollicular C cells using monoclonal antimetallothionein antibody E9 (Schmid et al) 114
***c-myc* Proteins**
Hormone production and c-*myc* protein labeling in plurihormonal pituitary adenomas (Ikeda et al) 162
Carbonic anhydrases
Carbonic anhydrases in the human adrenal gland and its disorders: immunohistochemical and biochemical studies of the enzymes (Sasano et al) 100
Carcinoma
Pineal gland metastases from mammary carcinoma (Kerenyi et al) 59
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67 (Case report)
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a gastric carcinoma metastatic to a thyroid adenoma (Nonomura et al) 233 (Case report)
Carcinoma, non-small-cell lung
Immunohistochemical demonstration of chromogranin A, chromogranin B, and secretoneurin in primary non-small–cell carcinomas of the lung (Tötsch et al) 212
Carotid body tumor
Carotid body tumor mimicking adenocarcinoma on fine-needle aspiration (Soares et al) 131 (Case report)
Case reports
A composite somatotroph-corticotroph pituitary adenoma (Apel et al) 240
Cushing's syndrome caused by an ectopic pituitary adenoma of the sphenoid sinus: adrenal crisis after partial resections of the adenoma (Morita et al) 123
Dystopic neurohypophysis (Aydin and Ghatak) 72
Ectopic Cushing's syndrome caused by an 8 mm lung carcinoid localized by scintigram with the somatostatin analog ^{111}In-pentetreotide (Raposo et al) 191
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a

Metallothionein expression in normal, hyperplastic, and neoplastic thyroid follicular and parafollicular C cells using monoclonal antimetallothionein antibody E9 (Schmid et al) 114
Autoimmune diseases
Rathke's pouch during autoimmune inflammation of the rat pituitary (Levine and Saltzman) 149
Thyroid lymphomas in human thyroid tissue with autoimmune thyroid disease xenografted in severe combined immunodeficient mice (Morita et al) 169

Basic fibroblast growth factor
Localization of basic fibroblast growth factor (bFGF) protein and mRNA in human pituitaries: regulation of bFGF mRNA by gonadotropin-releasing hormone (Jin et al) 27
Biopsy, needle
Carotid body tumor mimicking adenocarcinoma on fine-needle aspiration (Soares et al) 131 (Case report)
Bladder neoplasms
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67 (Case report)
Breast neoplasms
Pineal gland metastases from mammary carcinoma (Kerenyi et al) 59

C cells
Metallothionein expression in normal, hyperplastic, and neoplastic thyroid follicular and parafollicular C cells using monoclonal antimetallothionein antibody E9 (Schmid et al) 114
***c-myc* Proteins**
Hormone production and c-*myc* protein labeling in plurihormonal pituitary adenomas (Ikeda et al) 162
Carbonic anhydrases
Carbonic anhydrases in the human adrenal gland and its disorders: immunohistochemical and biochemical studies of the enzymes (Sasano et al) 100
Carcinoma
Pineal gland metastases from mammary carcinoma (Kerenyi et al) 59
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67 (Case report)
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a gastric carcinoma metastatic to a thyroid adenoma (Nonomura et al) 233 (Case report)
Carcinoma, non-small-cell lung
Immunohistochemical demonstration of chromogranin A, chromogranin B, and secretoneurin in primary non-small–cell carcinomas of the lung (Tötsch et al) 212
Carotid body tumor
Carotid body tumor mimicking adenocarcinoma on fine-needle aspiration (Soares et al) 131 (Case report)
Case reports
A composite somatotroph-corticotroph pituitary adenoma (Apel et al) 240
Cushing's syndrome caused by an ectopic pituitary adenoma of the sphenoid sinus: adrenal crisis after partial resections of the adenoma (Morita et al) 123
Dystopic neurohypophysis (Aydin and Ghatak) 72
Ectopic Cushing's syndrome caused by an 8 mm lung carcinoid localized by scintigram with the somatostatin analog ^{111}In-pentetreotide (Raposo et al) 191
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a

gastric carcinoma metastatic to a thyroid adenoma (Nonomura et al) 233

Chromogranins
Immunohistochemical demonstration of chromogranin A, chromogranin B, and secretoneurin in primary non-small–cell carcinomas of the lung (Tötsch et al) 212

Corticotroph adenoma
A composite somatotroph-corticotroph pituitary adenoma (Apel et al) 240 (Case report)

Cushing's syndrome
Cushing's syndrome caused by an ectopic pituitary adenoma of the sphenoid sinus: adrenal crisis after partial resections of the adenoma (Morita et al) 123 (Case report)
Ectopic Cushing's syndrome caused by an 8 mm lung carcinoid localized by scintigram with the somatostatin analog ^{111}In-pentetreotide (Raposo et al) 191 (Case report)
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67 (Case report)

Cytokeratin
Cytokeratin distribution and functional properties of growth hormone–producing pituitary adenomas (Sano et al) 107

Cytomegaloviruses
Cytomegalovirus adrenalitis in acquired immunodeficiency syndrome (Chiu et al) 218

DNA
DNA measurement, proliferation markers, and other factors in pituitary adenomas (Krämer et al) 198
DNA ploidy of pheochromocytoma on cytology specimen by image analysis (Kimura et al) 178

Dyshormonogenetic goiter
Dyshormonogenetic goiter: a morphological and immunohistochemical study (Matos et al) 49

Dystopia
Dystopic neurohypophysis (Aydin and Ghatak) 72 (Case report)

Editorials
Editorial announcement (Kovacs and Asa) 197
The first four years of endocrine pathology (Kovacs and ASA) 79
Growth factors in the pituitary gland (Kontogeorgos et al) 1

Elderly; *see* **Aged**

Endocrine cells
Hyperplastic proliferations of enteroendocrine cells (Dayal) 4 (Review)

Endocrine Pathology
The first four years of endocrine pathology (Kovacs and ASA) 79 (Editorial)

Enteroendocrine cells
Hyperplastic proliferations of enteroendocrine cells (Dayal) 4 (Review)

Enzymes
Carbonic anhydrases in the human adrenal gland and its disorders: immunohistochemical and biochemical studies of the enzymes (Sasano et al) 100

Epidermal growth factor
Immunohistological localization of TGFα, EGF, IGF-I, and TGFβ in the normal human pituatary gland (Ren et al) 40

Fine needle aspiration; *see* **Biopsy, needle**

Follicular growth
Utility of frozen section analysis on follicular lesions of the thyroid (Bronner et al) 154

Frozen section analysis
Utility of frozen section analysis on follicular lesions of the thyroid (Bronner et al) 154

Gastric neoplasms
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a gastric carcinoma metastatic to a thyroid adenoma (Nonomura et al) 233 (Case report)

Genetics
The neurofibromatosis gene in human pituitary adenomas (Pei and Melmed) 229

Goiter
Dyshormonogenetic goiter: a morphological and immunohistochemical study (Matos et al) 49
Occurrence and significance of vascular invasion in multinodular adenomatous goiter (Papotti et al) 35

Gonadal stromal tumors
Ovarian tumors with functioning manifestations (Tavassoli) 137 (Review)

Gonadotropin-releasing hormone
Localization of basic fibroblast growth factor (bFGF) protein and mRNA in human pituitaries: regulation of bFGF mRNA by gonadotropin-releasing hormone (Jin et al) 27

Growth factors
Growth factors in the pituitary gland (Kontogeorgos et al) 1 (Editorial)
Immunohistological localization of TGFα, EGF, IGF-I, and TGFβ in the normal human pituatary gland (Ren et al) 40

Growth hormone
Cytokeratin distribution and functional properties of growth hormone–producing pituitary adenomas (Sano et al) 107

Hormones
Cytokeratin distribution and functional properties of growth hormone–producing pituitary adenomas (Sano et al) 107
Hormone production and c-*myc* protein labeling in plurihormonal pituitary adenomas (Ikeda et al) 162
Ovarian tumors with functioning manifestations (Tavassoli) 137 (Review)

Hyperplasia
Hyperplastic proliferations of enteroendocrine cells (Dayal) 4 (Review)
Metallothionein expression in normal, hyperplastic, and neoplastic thyroid follicular and parafollicular C cells using monoclonal antimetallothionein antibody E9 (Schmid et al) 114

Image analysis
DNA ploidy of pheochromocytoma on cytology specimen by image analysis (Kimura et al) 178

Immunohistochemistry
Carbonic anhydrases in the human adrenal gland and its disorders: immunohistochemical and biochemical studies of the enzymes (Sasano et al) 100

Dyshormonogenetic goiter: a morphological and immunohistochemical study (Matos et al) 49
Immunohistochemical demonstration of chromogranin A, chromogranin B, and secretoneurin in primary non-small–cell carcinomas of the lung (Tötsch et al) 212
Ki-67 is an indicator of progression of neuroendocrine tumors (Kimura et al) 223

In situ hybridization
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67 (Case report)

Inflammation
Rathke's pouch during autoimmune inflammation of the rat pituitary (Levine and Saltzman) 149

Insulin-like growth factor
Immunohistological localization of TGFα, EGF, IGF-I, and TGFβ in the normal human pituatary gland (Ren et al) 40

Journal
The first four years of endocrine pathology (Kovacs and ASA) 79 (Editorial)

Ki-67
Ki-67 is an indicator of progression of neuroendocrine tumors (Kimura et al) 223

Lung neoplasms
Ectopic Cushing's syndrome caused by an 8 mm lung carcinoid localized by scintigram with the somatostatin analog ^{111}In-pentetreotide (Raposo et al) 191 (Case report)
Immunohistochemical demonstration of chromogranin A, chromogranin B, and secretoneurin in primary non-small–cell carcinomas of the lung (Tötsch et al) 212
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a gastric carcinoma metastatic to a thyroid adenoma (Nonomura et al) 233 (Case report)

Lymphoma
Thyroid lymphomas in human thyroid tissue with autoimmune thyroid disease xenografted in severe combined immunodeficient mice (Morita et al) 169

Metallothionein
Metallothionein expression in normal, hyperplastic, and neoplastic thyroid follicular and parafollicular C cells using monoclonal antimetallothionein antibody E9 (Schmid et al) 114

Metastasis; *see* **Neoplasm metastasis**

Monoclonal antibodies; *see* **Antibodies, monoclonal**

mRNA; *see* **RNA, messenger**

Neoplasm metastasis
Pineal gland metastases from mammary carcinoma (Kerenyi et al) 59
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a gastric carcinoma metastatic to a thyroid adenoma (Nonomura et al) 233 (Case report)

Neoplasms; *see also specific neoplasms*
Functional pathology of human ovarian steroidogenesis: normal cycling ovary and steroid-producing neoplasms (Sasano) 81 (Review)
Metallothionein expression in normal, hyperplastic, and neoplastic thyroid follicular and parafollicular C cells using monoclonal antimetallothionein antibody E9 (Schmid et al) 114

Neuroendocrine tumors
Ki-67 is an indicator of progression of neuroendocrine tumors (Kimura et al) 223

Neurofibromatosis
The neurofibromatosis gene in human pituitary adenomas (Pei and Melmed) 229

Neurohypophysis
Dystopic neurohypophysis (Aydin and Ghatak) 72 (Case report)

Old age; *see* **Aged**

Ovarian neoplasms
Functional pathology of human ovarian steroidogenesis: normal cycling ovary and steroid-producing neoplasms (Sasano) 81 (Review)
Ovarian tumors with functioning manifestations (Tavassoli) 137 (Review)

Pheochromocytoma
DNA ploidy of pheochromocytoma on cytology specimen by image analysis (Kimura et al) 178

Pineal gland
Pineal gland metastases from mammary carcinoma (Kerenyi et al) 59

Pituitary gland
Amyloid deposits of the pituitary in old age: correlation with histopathological alterations (Röcken and Saeger) 183
Growth factors in the pituitary gland (Kontogeorgos et al) 1 (Editorial)
mmunohistological localization of TGFα, EGF, IGF-I, and TGFβ in the normal human pituatary gland (Ren et al) 40
Localization of basic fibroblast growth factor (bFGF) protein and mRNA in human pituitaries: regulation of bFGF mRNA by gonadotropin-releasing hormone (Jin et al) 27
Rathke's pouch during autoimmune inflammation of the rat pituitary (Levine and Saltzman) 149

Pituitary neoplasms
A composite somatotroph-corticotroph pituitary adenoma (Apel et al) 240 (Case report)
Cushing's syndrome caused by an ectopic pituitary adenoma of the sphenoid sinus: adrenal crisis after partial resections of the adenoma (Morita et al) 123 (Case report)
Cytokeratin distribution and functional properties of growth hormone–producing pituitary adenomas (Sano et al) 107
DNA measurement, proliferation markers, and other factors in pituitary adenomas (Krämer et al) 198
Hormone production and c-*myc* protein labeling in plurihormonal pituitary adenomas (Ikeda et al) 162
Incidental adenomas of the human pituitary gland (Uei et al) 90
The neurofibromatosis gene in human pituitary adenomas (Pei and Melmed) 229

Plurihormonal adenoma
Hormone production and c-*myc* protein labeling in plurihormonal pituitary adenomas (Ikeda et al) 162

Proliferation markers
DNA measurement, proliferation markers, and other factors in pituitary adenomas (Krämer et al) 198
Proopiomelanocortin
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67 (Case report)
Proteins
Hormone production and c-*myc* protein labeling in plurihormonal pituitary adenomas (Ikeda et al) 162
Localization of basic fibroblast growth factor (bFGF) protein and mRNA in human pituitaries: regulation of bFGF mRNA by gonadotropin-releasing hormone (Jin et al) 27

Rathke's pouch
Rathke's pouch during autoimmune inflammation of the rat pituitary (Levine and Saltzman) 149
Reviews
Functional pathology of human ovarian steroidogenesis: normal cycling ovary and steroid-producing neoplasms (Sasano) 81
Hyperplastic proliferations of enteroendocrine cells (Dayal) 4
Ovarian tumors with functioning manifestations (Tavassoli) 137
RNA, messenger
Localization of basic fibroblast growth factor (bFGF) protein and mRNA in human pituitaries: regulation of bFGF mRNA by gonadotropin-releasing hormone (Jin et al) 27
Proopiomelanocortin mRNA expression by small cell bladder carcinoma associated with Cushing's syndrome: diagnostic contribution of in situ hybridization (Lakka-Papadodima et al) 67 (Case report)

Scintigraphy
Ectopic Cushing's syndrome caused by an 8 mm lung carcinoid localized by scintigram with the somatostatin analog ^{111}In-pentetreotide (Raposo et al) 191 (Case report)
Secretoneurin
Immunohistochemical demonstration of chromogranin A, chromogranin B, and secretoneurin in primary non-small–cell carcinomas of the lung (Tötsch et al) 212
Severe combined immunodeficiency
Thyroid lymphomas in human thyroid tissue with autoimmune thyroid disease xenografted in severe combined immunodeficient mice (Morita et al) 169
Somatostatin
Ectopic Cushing's syndrome caused by an 8 mm lung carcinoid localized by scintigram with the somatostatin analog ^{111}In-pentetreotide (Raposo et al) 191 (Case report)
Somatotroph adenoma
A composite somatotroph-corticotroph pituitary adenoma (Apel et al) 240 (Case report)
Sphenoid sinus
Cushing's syndrome caused by an ectopic pituitary adenoma of the sphenoid sinus: adrenal crisis after partial resections of the adenoma (Morita et al) 123 (Case report)
Steroids
Functional pathology of human ovarian steroidogenesis: normal cycling ovary and steroid-producing neoplasms (Sasano) 81 (Review)

Thyroid diseases
Utility of frozen section analysis on follicular lesions of the thyroid (Bronner et al) 154
Thyroid gland
Metallothionein expression in normal, hyperplastic, and neoplastic thyroid follicular and parafollicular C cells using monoclonal antimetallothionein antibody E9 (Schmid et al) 114
Thyroid neoplasms
Occurrence and significance of vascular invasion in multinodular adenomatous goiter (Papotti et al) 35
Thyroid lymphomas in human thyroid tissue with autoimmune thyroid disease xenografted in severe combined immunodeficient mice (Morita et al) 169
Two patients with metastasis of cancer to other neoplasm: a thyroid carcinoma metastatic to a lung carcinoma and a gastric carcinoma metastatic to a thyroid adenoma (Nonomura et al) 233 (Case report)
Transforming growth factor-alpha
Immunohistological localization of TGFα, EGF, IGF-I, and TGFβ in the normal human pituatary gland (Ren et al) 40
Transforming growth factor-beta
Immunohistological localization of TGFα, EGF, IGF-I, and TGFβ in the normal human pituatary gland (Ren et al) 40
